CONTRIBUTIONS TO LEED®

HAWORTH®

York Contributions to LEED

Minimize impact. Maximize investment. York is durable and adaptable so it will keep working for you through many years of change. York products may contribute to the individual prerequisites and credits of LEED. Because LEED is a holistic building rating system and sustainable design guideline, there is no such thing as LEED certified products—only ways of using and applying products to support the criteria.

York contributes to the following LEED Certifications:

LEED ID+C

LEED BD+C

LEED EB:O&M

LEED Core & Shell Development

York™ Contributions to LEED®

Product Name: York Casegoods
 LEED Rating System: LEED Interior Design & Construction

Energy & Atmosphere

Credit 1.1	Optimize Energy Performance - Lighting Power <i>York lighting solutions utilize high efficiency electronic ballasts and energy efficient T5 and T8 lamps.</i>	1-3 points
------------	---	------------

Materials & Resources

Credit 2	Construction Waste Management <i>York packing materials include cardboard, polyethylene film and wood, all of which are easily recycled in many markets.</i>	1-2 points
Credit 3	Materials Reuse <i>York products are designed to be easily moved, refurbished if desired, and reused, contributing to this point on future projects.</i>	1 point
Credit 4	Recycled Content <i>York products may contribute to this point as a typical installation contains 3% post-consumer and 76% pre-consumer recycled content.</i>	1-2 points
Credit 5	Regional Materials <i>York products may contribute to this point depending on the project location. York is manufactured in Scarborough, Ontario, Canada.</i>	1-2 points
Credit 7	Certified Wood <i>FSC certified wood materials are available for York as standard product by selecting the FSC option. Chain of Custody Certificate: SCS-COC-001218.</i>	1 point

Indoor Environmental Quality

Credit 6.1	Controllability of Systems --- Lighting <i>York individual task lights provide direct control of lighting levels.</i>	1 point
Credit 8.1	Daylight and Views --- Daylight <i>Variation of component heights and proper orientation of components provides access to daylighting and preservation of view corridors.</i>	1 point
Credit 8.2	Daylight and Views - Views for Seated Spaces <i>Variation of component heights and proper orientation of components provides access to daylighting and preservation of view corridors.</i>	1 point

Innovation & Design Process

Credit 1	Innovation in Design <i>Innovation points may be achieved when a project substantially exceeds a LEED-CI performance credit. For instance, an innovation point may be awarded for achieving 30% recycled content on a LEED-CI 2009 project. York can contribute to achieving this higher level of recycled content.</i>	1 point
