

Very Task | **Very Smart**

Very Task brings you science-led ergonomics, ensuring maximum comfort throughout your day.

**HAWORTH®**

## Very Task | Asymmetrical Lumbar

Very Task's asymmetrical lumbar pad adjusts up or down to fit with the "small" of your back, while the side-independent paddles adjust the level of support.

**HAWORTH®**

## Very Task | 4-D Arms

Very Task's optional four-dimensional arms offer a four-inch height adjustment range, while the armrests also pivot and slide side-to-side or front-to-back for ultimate support.

**HAWORTH®**

Very Task | Back Lock/Forward Tilt

The Very Task offers a single-position back-lock that keeps the back of the chair in an upright position and an optional forward-tilt for back and lumbar support in an upright forward position.

**HAWORTH®**

## Very Task | Seat-Depth Adjustment

The Very Task seat pan can be adjusted three inches in depth to fit a wide range of people, guaranteeing your thighs are supported without the seat pan touching the back of your knees.

**HAWORTH®**

## Very Task | Seat-Height Adjustment

With the Very Task, you can adjust the seat height to help keep proper circulation to the lower limbs by being able to place your feet flat on the floor with your thighs parallel to the floor and knees bent at 90 degrees or more.

**HAWORTH®**

Very Task | Synchronous Tilt

Movement is healthy; and as you recline in your chair, it stimulates blood flow and relieves the pressure on your spine.

**HAWORTH®**

## Very Task | Tilt-Tension Adjustment

The Very Task has tilt-tension control that regulates the amount of resistance when leaning back in the chair.
