

Composites™

HAWORTH™

**Five backs. Four arms. One chair. Perfect.**

Designed by William Schacht, Composites seating is an elegant, as well as practical series of integrated wood chairs that transcends traditional, contemporary, and transitional environments.

The Composites chair frame is available in five back and four arm styles, giving a precise look to private offices, conference rooms, and reception areas.

Composites is offered in the full range of Haworth finishes and can be specified to match individual customer requirements. In addition, Haworth's entire selection of fabrics and leathers are also available.

On Cover: Cascade Arm, Slat Back: 4247-00 Finish: Natural Fabric: Haworth, Karakul, French Knots Inside Cover: Arc Arm, Slat Back: 4245-00 Finish: Natural Fabric: Haworth, Wuhl, Fern

**Stack**

The stack chair is available with either a slat or upholstered back. All styles stack up to four chairs high and come with protective bumpers to help prevent scratches.

## Specifications

All chairs are leg-based, open-armed, and constructed of Maple hardwood. Seat frame rails are joined by mortise and tenon, cross-locked with dowels, and reinforced with corner blocks. This method of joinery is the most secure joinery construction in the industry, producing sturdy furniture that will go beyond serving its function as a chair, standing up to all kinds of usage.
