

TecCrete

Casino Gaming Floors

Product Sheet

Lay a foundation for a space that is smarter, more flexible, and sustainable that is ideal for casinos — an environment that requires strong and quiet access flooring.

The exposed concrete surface offers a unique aesthetic that is beautiful enough to leave bare, or covered with modular carpet, you choose. Either way, you get a surface that feels rock solid underfoot, unlike ordinary steel access floors.

Improve wiring distribution to the access floor plenum

- Easily separate power and data from security
- Quickly move banks of slots
- Minimize gaming down time
- The floor plenum can provide for the delivery of conditioned air
