

Tally™

HAWORTH®

The Tally collection of guest, stacking and multiple seating combines contemporary design with comfort and durability. A unique half moon reveal accents the arm detail.

Versatile Tally addresses the needs of an entire facility. Guest seating and stacking chairs are visually compatible with multiple seating and table configurations. The open arms and back add a light-scale appearance and ease of maintenance. Seat and back cushions remove for replacement or reupholstery in high-traffic areas.

Tally

Offering solid maple modular construction, the Tally offers customers distinctive arms, elegantly tapered legs and a comfortable sit. Tally's multiple seating comes fully assembled in a selection of 10 straight-line, seat-and-table configurations. Multiple seating can also be specified with optional tables and intermediate or end benches, allowing for numerous straight and corner seat-and-table combinations.

Tally's mortise and tenon joints ensure structural integrity, while the seating line's removable backs and seats offer easy reconfiguration and replacement.
